### Hands-on training offered by DEQ for NetDMR online reporting

BATON ROUGE – The Louisiana Department of Environmental Quality is offering training for permit holders on the use of the NetDMR online application for the submission of discharge monitoring reports. A Discharge Monitoring Report, known as a DMR, is a self-reporting document that is generated by those who hold a Louisiana Pollutant Discharge Elimination System permit. The DMR contains information pertaining to water discharges into waters of the state.

DEQ's training is conducted in person in a computer lab setting to allow for hands-on-experience using NetDMR. The one-day session lasts approximately three hours and is intended to provide permit holders and data providers with an overview of the NetDMR application which instructs how to submit DMRs online. Participants will walk through registering for an account, entering data and submitting a DMR online.

The training schedule is as follows:

#### **Baton Rouge – Dec. 12**

8:30 a.m.-11:30 a.m.  
DEQ Headquarters  
602 N. 5<sup>th</sup> street  
Baton Rouge

Registration is required as space is limited. To register, please email [deqnetdmr@la.gov](mailto:deqnetdmr@la.gov). To find out more information about the NetDMR program, please go to [www.deq.louisiana.gov/netdmr](http://www.deq.louisiana.gov/netdmr).
